"Anointed to Preach, Teach, Heal and to Deliver"

Editorial

Your Destiny matters!

Because God is interested and concerned with where He is taking you. I should remind you here that, God will not abandon you on the way and make you stranded. When you are with Him, be rest assured that you will reach your destination. He is a Destiny - God. So you must be a people of Destiny.

We are compelled through this publication to motivate, inform, teach, encourage and enrich for transformation, reformation and change!

You have come from too far! Do not think of giving up now! Do not throw in the towel now. Think of where God picked you up from - you have come from just too far. Go on and keep on pressing on.

May the Lord shine on you always.

Yours for the cause that counts, enjoy this issue as you get blessed!

"Anointed to Preach, Teach, Heal and to Deliver"

The Challenge!

We have been compelled by the effects of dysfunctional families in terms of; HIV/AIDS, Orphans, Street Kids, Widows, Poverty and other epidemics that has culminated into a generation of a people without much ability and power to help themselves.

In an effort to promote integral human development, the Christian leaders face various challenges including: - HIV/AIDS Crisis, high unemployment level, High poverty levels, and lack of sustainability of Programmes/projects due to donor dependency.

".... Out of Zion; Perfection of Beauty...."

We come along to offer an enabling environment for Christian Discipleship and Leadership training and development, teaching and growth.

In an effort to provide an enabling environment; we started a Poultry project.

Through this project, we hope to generate income for the staff, teach skills and provide food for the children at the Village.

A poultry house has been built - this has a capacity of keeping 7000 to 10000 Chicken at a time.

The poultry operation is planned to be able to produce both layers and broiler chicken. With this strategy, we will flood the market with the much needed eggs from the layers operation and the broilers will be for the highest demand of chicken consumption.

Food Security Assured!!

Part of the harvest at the Destiny Africa Farm in Ndola - Zambia.

Above is staff Micheal Kashina giving himself a treat as he tastes the first fruits from gardens!

We are hoping to be the major producer of fresh vegies in and around Ndola area by the year 2009!

Food security is key to any development and we hope Destiny Africa will facilitate the same in the communities!

It all started one day! Above, Micheal is cutting trees - this is what we did to clear the portions on the virgin land on our property. At this time, we had no much resources to hire a dozer to be able to help with the up-rooting of trees at the farm! So we did it in whatever way - as long as the goal was finally achieved.

With faith; having done the landscaping ourselves - manually. It is now time to start preparing the ground for planting. We brought together a labour force of more than 10 men. We believed God and here, the team prepares the fields for the first ever seed to get down this soil!

With much prayer and commitment, Gates of Glory Ministries in 2005 managed to acquire this Mahindra Tractor and accessories [Harrow & Plough]. We thank God for the support from our friends - without whom we would have not gone this far.

With this equipment, we are able to easily manage the ploughing of the farm land cleared and also help with other Christian Small Scale Farmers around us.

In 2006 - 2007 farming season, we were able to manage a 1 hector garden with a variety of vegies which has been of great help to our project and the beneficiaries.

In the garden is mama Ngosa [Justine's wife] admiring the fresh vegetables.

Sis. Ngosa comes along into the Gates of Glory Ministries with a great resource and expertise in Social Work - as a Diploma holder in the field.

From the efforts at the Missions Farm, we were able to host a number of OVCs for a New Year Party. All - fed from the produce - a great event of the life time of our ministry! This is what we wanna do all the time!
